

## Chartis DOCKLANDS, VIC

Chartis is known as one of the world's leading insurance organisations, specialising in commercial and general insurance. The business has held a presence in Australia since 1957, with offices throughout the country.

METIER3 was given the responsibility of creating a new Melbourne office for Chartis, in the Seven17 Bourke Street building in Docklands. The challenge was to take the organisation from a traditional mixed plan environment of enclosed offices, to an entirely open plan environment with no physical barriers between employees.

The result achieved is a seamless workplace with links to common areas, such as meeting rooms, breakouts and internal meeting areas.
